CHARLESTON, S. C., April 19.—
Optimism over the immediate outlook for the cotton textile industry was expressed by George A. Sloan, of New York, president of the Cotton Textile Institute, in an address today to the American Cotton Manufacturers' Association here.

Asserting that the present statistical position of the industry was favorable, Sloan said:

"The net situation, and by this we mean the relationship between production, stocks on hand and unfilled orders, at the end of March, 1934, was better than at any corresponding period during the Drevious six years. Even better than at the end of March, 1934, was better than at the end of any month during the calendar years 1928, 1929, 1930 and 1931, In the latter half of 1931.

Charles Dickens' letters to Catherine Hogarth, the girl who became his wife, are soon be published for the first time and will appear, in this section, exclusively in The Constitution. These letters, penned during Dickens' ardent courtship, are grave and gay, endearing and severe, interwoven with fact and anecdote and illuminated with illustrations. They present an enthralling picture of this great novelist.

As a prelude to this series, The Constitution, beginning next Sunday, will publish a series of articles written by an expert on Dickens which deal with another romance in the author's life. They tell of his attachment for Maria Beadnell, give more of Dickens' letters and extracts from his letters and present the highly interesting background of the novelist's career.

courses this year. The loans amount to approximately \$5,000. The foundation, in its 25 years of existence, has sent 526 girls to college with loans totaling \$13,281. The foundation and the Tallulah Falls Industrial school are the principal objects on which the women's clubs are concentrating.

dustrial school are the principal objects on which the women's clubs are concentrating.

Georgia is the only state where club women own and operate a school. The Tallulah Falls school has over 300 students and is free of debt.

Various educational foundations of the clubwomen will make their reports at Wednesday's session of the federation's annual convention here next week. The women's clubs will be in session here from Monday through Thursday. Mrs. Charles J. Haden, prominent Atlanta woman, is chairman of the Student Aid Foundation. Other officers are Miss Marian Woodward, vice chairman: Mrs. E. M. Helbig, recording secretary, and Mrs. E. K. Large, executive secretary.

The Georgia Federation of Women's Clubs has been active in spousoring legislation dealing with family welfare, schools and institutions for human welfare. The state normal school in Athens grew out of efforts of the women's clubs. The clubs also were first to urge extensive teaching for rural women in Georgia, which led to establishment of home economics and demonstration agents under direction of the college of agriculture.

Organized in 1896 with 16 local clubs, the Georgia federation was admitted into the general federation in 1897 and now has 247 clubs with a total of 20,000 members.

icy Alaskan waters, helps tremendously to make springtime menus interesting and delicious and serves as a remarkably efficient tonic food. As you may know, the oil of canned red salmon contains fully as much Vitamin D as cod liver oil. Red salmon also contains Vitamin A, which promotes growth and builds resistance to discase, together with goiter preventing iodine, and calcium (lime) and phosphorous for the making of strong teeth and bones. And it is pleasant to know that salmon is one of the most valuable protein, or tissue building foods. There is no waste in a tin of this fine fish, it is inexpensive, delicious, and full of healthful qualities. I list a few of the recipes for its use which are favorite in my household.

Bishop Denies Charges That Only One Committee Existed in South.

WASHINGTON, April 19 .- (AP)-Bishop James Cannon Jr. testified today that separate state committees were set up to handle the campaign

were set up to handle the campaign against Alfred E. Smith in 1928 but that only one letterhead was used to cut down expenses.

The churchman was replying to charges by the government that he conspired to violate the corrupt practices act by agreeing with Ada L. Burroughs, a co-defendant, not to report all of the campaign expenditures.

The government has contended there was actually only one committee back of the campaign against Smith in the south and had introduced the sta-tionery as evidence that this was

true.

The bishop said a conference of opponents of Smith at Asheville, N. C., early in the campaign placed in his hands the responsibility for conducting the campaign.

New Ruling Makes Labels
Accurate

To protect the buying public, the United States Food and Drug Administration has advised that every package of cereal labeled "Bran" state on the label exactly what it contains.

Before this ruling, even partbran products were sometimes mistakenly referred to as "Bran." It was not easy for the purchaser to distinguish between a cereal that was entirely bran, or all bran with flavoring, and another that was mostly wheat.

Kellogg's ALL-Bran is labeled "ALL-Bran Deliciously Flavored with Malt, Sugar and Salt," a statement which describes the product

Kellogg's ALL-Bran has won millions of friends because it corrects most types of common constipation safely and pleasantly. It furnishes generous "bulk"—needed to promote normal elimination.

However, ALL-Bran is not s"cure-all." Certain types of intestinal disorders should be treated only on a physician's advice.

"I brought up the question of the corrupt practices act," he said, referring to a meeting he had with other campaign workers.

"I said I had studied this act and had talked with those who knew the law," he testified. "I said as far as I am concerned I doubt whether any report at all is required but we are going to make one for the headquarters committee of the south."

The bishop was still on the stand when court adjourned for the day.

But the conference arranged in the
president's White House study for
more than half a hundred members
of the American Society of Newspaper Editors was strictly "off the record." Any presidential remarks were
for the suidance of those present, not
for publication.

An afternoon meeting at the National Press Club formally opened the
society's twelfth annual convention,
which its president, Paul Bellamy, of
the Cleveland Plain Dealer, said
"should include frank and open consideration of the new problems precipitated on the press by the new deal."

"We have proceeded upon the theory cies was the opportunity afforded to-

TIFTON, Ga., April 19.—(P)—The candidacy of Mrs. Susie T. Moore, present state senator from the forry-seventh senatorial district. for the house of representatives from Tift county, and probable opposition to the renomination of Congressman E. E. Cox, of the second Georgis district, provide the outstanding interest in this section in this summer's political races.

Mrs. Moore is "the lady in the senate" to whom Governor Talmadge referred frequently as one of his staunch supporters, and at the recent meeting of the state democratic executive committee she was appointed vice chairman to succeed J. J. Mangham, resigned.

M. S. Patten, present representative from Tift county, also is expected to be a candidate, although he has made no formal announcement.

Jeff Pope, Cairo attorney, has let it be known that he will oppose the renomination of Congressman Cox. who has represented the second Georgia district for 10 years. Waldo DeLoache, judge of the Moultrie city court, also has been mentioned as a possible candidate.

Omaha, Neb., was named the 1935 convention city. Thomas H. Joy, of Nashville, Tenn., was elected a director.

Air-conditioning on the Santa Fe is a big job. At least twenty-four complete trains are required to service The Chief, California Limited and Grand Canyon Limited, alone, between Chicago and California.

A big job-yet by summer Santa Fe will have air-conditioned certain cars—including all Fred Harvey diners - on every limited train.

The Chief, fastest to California; California Limited and Grand Canyon Limited, fine trains without extra fare; The Ranger, crack train between Chicago and Texas.

New low fares and dining car prices; sleeping car charges reduced one-thirds air-conditioning of much equipment, thus the Santa Fe cuts old cost and adds new comfort. Through Santa Fe Pullmans from Chicago, St. Louis, Kansas City and New Orleans.

cause it is a combination of four antacids. Each one proved for its beneficial effect on acid indigestion. One checks acidity at once, bringing immediate relief. Others act later, keeping the stomach sweet for hours. In the meantime, a potent new diastase promotes digestion of starchy foods. This helps remove the stomach's burden. That's why so many people take Placidan. Try it yourself. It's the latest medical way. Get Placidan at all drug stores.

Can't Tame His Wife

MILWAUKEE, April 19.—(UP) George Wagner, who has trained tigers and lions for 30 years, testified in court today that he was unable to "train" his wife.

"I never could handle her—she's harder to manage than a tiger," Wagner testified in opposing his wife's divorce suit.

Wagner testified in opposing his wife's divorce suit.

Mra. Wagner was granted the divorce on grounds of cruelty. She agreed that while Wagner was an expert animal trainer he "never could understand women."

After the divorce was granted, the couple left the courtroom armin-arm.

To date my scorpion has eaten nine good spiders. My kingsnake would be glad to eat the hog-nosed snake, except that he cannot get to him. He is hungry after shedding that skin. He will be fed a mouse if the traps yield any; if not, he will have to be content with a garter angle.

him. He is hungry after shedding that skin. He will be fed a mouse if the traps yield any; if not, he will have to be content with a garter snake.

Now about that hog-nosed snake. Last night I spilled him out on the floor and tormented him into a state of high misery. He went into a fit and played dead, remaining perfectly motionless while on his back. He eventually recovered long enough to crawl away. When I made a motion in his direction he went through a would-be terrifying procedure of flattening the neck like a hooded cobra, with that unconvincing neck held too far forward. He struck at my hand a dozen times, but always with the mouth tightly closed! This one is exactly like all the others I have seen in that it cannot be made to bite. I suppose that this sort of snake has struck terror to the souls of more darkies than any other species, and I know many white men who would stand and watch rattlesnakes but whe would flee headlong from the pure bluff of the hog-nosed snake.

In order that there may be absolutely no confusion as to the exact identity of the snake I mean, I want to list here as many of its names as I know. To those of you who delve into snake lore the one I mean is Heterodon contortrix. Others of you may know it as the hog-nosed snake from the curious upturn of the rostral scale, while others will recognize the name of the "blow-adder."

These last names, by the way, are all good snake names, but they belong to African and Arabian snakes of the family Viperidae, or true vipers. Highly venomous snakes these, but in no way related to this spunky little colubrine serpent that hisses and flattens his neck at me while I hold him coiled in the palm of my hand. His antics are at once intensely amusing and pathetic; he would like so much to intimidate me, but he cannot do it, so he hisses and spreads in a courageous manner with an air of utter hopelessness.

His colors are splendid and bright.

but he cannot do it, so he hisses and spreads in a courageous manner with an air of utter hopelessness.

His colors are splendid and bright. I shall get a photograph of the snake and make a color drawing from life. You won't be able to recognize it, but I will know what it is. That's all that matters.

SLUM CLEARANCE PROJECTS LEADING U. S., PALMER SAYS

Progress on the federal \$5,000,000 housing projects in Atlanta which will mean employment for at least 3,000 persons is far ahead of similar work in any other city in the country, C. F. Palmer, president of the board of trustees of Techwood, Inc., told a group of leading citizens Thursday at a luncheon meeting of the City Club at the Frances Virginia tearoom.

Mr. Palmer said that of the 278 property owners affected by the project, 95 per cent have signified their desire to co-operate with the government by "accepting a fair remuneration for their holdings as appraised by members of the Atlanta Real Estate Board."

According to plans, the new buildings, which will be started within six weeks, will house about 5,000 persons and will have "almost every conceivable convenience," including several sensational new improvements not to be found in any other residential district. Mr. Palmer added that about 60 per cent of the areas contemplated in the project will be given over to parks and playgrounds.

LOCAL AD MEMBERS TO ATTEND MEETING

The Atlanta Ad Club, meeting for luncheon Thursday in Rich's tea room, announced that some half dozen admen from Atlanta would attend a southeastern conference of advertising men to be held in Miami the latter part of May.

Sylvan Cox, an advertising man of Jacksonville, invited the club to send representatives. The meeting will be held in connection with the fourth district conference.

The club will meet at the Chamber of Commerce luncheon next Wednesday on the Ansley hotel roof when Sherman Rogers will speak. A program for increased membership and additional entertainment features was launched at Thursday's meeting.

Painful Piles Go Quick-No Cutting-No Salves

If you think an operation is always

If you think an operation is always the only way to escape the misery of torturing Piles, it's because you haven't heard of Hem-Roid the harmless internal medicine discovered by a western physician.

After years of study Dr. J. S. Leonhardt was convinced that the cause of Piles was internal—bad circulation of blood in the lower bowel—the hemorrhoidal veins filled with stagnant blood—and that the right and safe way to get freedom from Pile agony was to remove the cause with an internal medicine. Immediately the doctor set to work to find the remedy. He succeeded and called his prescription HEM-ROID.

Pile sufferers everywhere are benefiting by Dr. Leonhardt's discovery, so why doubt or delay longer when Jacobs Drug Stores and all druggists say, "No matter what kind of Piles you have, one bottle of HEM-ROID tablets must show you the safe, clean way to get rid of your pile misery or money back."—(adv.)

To chiefly counteract these unfair and unjust freight differentials, southern industry has had wage differentials to which it is rightfully entitled because of its God-given natural advantages. Deprived of the benefits of these advantages by the elimination of the wage preferentials, it will be faced with practical extinction.

The present situation finds southern industry between the upper and the nether millstones, with one branch of the government attempting to take away the advantage of wage differentials, and another branch placing an added burden on the manufactured products

SO GROWTH IS PAINLESS? A super-corporation that charges all the traffic will bear for its services the traffic will bear for its services devises ingenious ways to dispose of the excess profits—other than turning the excess profits back to the patrons who paid in the money. For instance a good chunk of this velvet goes ostensibly to promote public health but at the same time the "health" promotion adds much to the corporations dignity and prestige—in fact it is the finest kind of advertising for the business.

When is a young person "suitably clothed?" The corporations ad-writer would find it difficult to get a consensus of medical opinion about that. And I doubt if any doctor or health authority will commit himself upon the clemency of the weather or indicate at what point the weather ceases to be clement and becomes inclement, or precisely what "exposure ceases to be clement and becomes inclement, or precisely what "exposure to cold" means in such context.

Further along in his dissertation the erudite author of the corporation's publicity stuff does refer to "rheumatic infection" as a cause of "growing pains." ### News Behind the News

By PAUL MALLON.

FINESSE WASHINGTON, April 19.—The White House had its fingers crossed when it announced that it would take no part in the democratic congressional primaries.

What it meant was—openly.

Louis Howe already has been designated privately to handle the imaries for the administration. He will be unable to take his

Also, Mr. Farley's right-hand man, Emil Hurja, has departed at last from the PWA (much to the relief of Interior Secretary Ickes) and is now installed in the democratic national committee, although no announcement of the switch has yet been made.

Hurja specialized in the congressional end of the 1932 election

for Mr. Farley. He knows every vote in every congressional district since the Civil War.

HELP The president himself is not as shy on the subject as the announcements indicate. What happened at the White House during the recent visit of Texas boosters shows that.

Among the callers were Senator Tom Connally and his primary opponent, Representative Joe Bailey. One of the leading issues between them is their respective loyalty to the new deal. Bailey has strongly questioned Connally's record in that respect.

In front of a whole crowd from Texas, President Roosevelt

reached out and shook Connally's hand warmly. The president even threw an arm over Connally's shoulder. When it came Bailey's turn to shake hands, the witnesses ob-

served that the same enthusiasm was lacking.

The Texans raised their eyebrows and looked at each other. Soon that story will be all over Texas, and yet no one ever will be able to accuse the White House of mixing in the Texas primary.

SIGNIFICANCE There is more than that behind the Connally story. The truth seems to be that Mr. Con-nally boosted his stock 100 per cent at the White House when he voted to sustain the president's veto on veterans' allowances. The president feels very kindly toward those who stuck by him.

Mr. Connally is a veterans' man and always has been one. He

is a Spanish-American War veteran himself. His conversion was an outstanding event. he was treated was full notice to all democratic congressmen that the White House has a record of the veterans' veto

vote, and, while the president is officially taking no part in the primaries, he can and will find ways to help his friends. The Connally incident was so noticeable that Joe Bailey is supposed to have gone to the president and said he

announced later he was not withdrawing, so he must have been assured that the White House is not supporting anyone.

However, Mr. Roosevelt has been in politics too long not to have realized the implications which would be drawn from his de-

if the administration was supporting Connally. He

WISDOM Apropos of the alternating pressure now being ex-

erted on the president by conservatives and liberals, a high official of the White House tells this old fable: A man was walking along a road with his son and a donkey when he heard spectators comment on how foolish he was to feed donkey and then not ride it. So he got on to ride. Farther on, he heard talk about how selfish he was to ride and

his son walk. So he let the son get on.
A few miles farther, people reported him to the Society for the Prevention of Cruelty to Animals, and both he and his son were required to dismount and lead the donkey again.

The sequel to that one is the one Kin Hubbard always told about the newspaper publisher who soon went to the booby hatch when he tried to run a newspaper to please everyone.

OUIETERS Mr. Roosevelt apparently has decided to keep quiet about current legislation before congress. He has declined lately to discuss silver, the stock market bill, the tax bill

and proposed securities changes.

The idea seems to be that his new tactics will quiet the popular suspicion that he is handling congress as an organ grinder handles his performers on the end of a string.

NOTES Mr. Roosevelt is certainly feeling himself again. At his last two press conferences, his pleasant sarcastic wit Vice President Garner's unreported speech to the visiting Texas boosters was a whiz. Among other things, he said he thanked his stars that he was not nominated for the presidency at Chicago.

Also, that if the new deal was going to heaven or hades, he intended to go along. Mr. Roosevelt gave Senator Wagner a strong joshing about the labor board bill when they met a few days ago, saying in effect: "Good grief, Bob, what happened to you? When I went away, you

were getting along all right, but when I get back I find everyone swarming all over you, pulling your hair out." The answer to that Wagner may introduce a substitute bill shortly.

In the labor department, they will tell you about the Irishman qualifying for citizenship. He was asked what NRA stood for, and what PWA meant, and gave the right answers, but, when asked about RFC, he replied: "Reverend Father Coughlin." (Copyright, 1984, by Paul Mallon.)

### To Primitive Man the Noblest Tree Was Merely a Good Place To Roost

-By Robert Quillen-

If you were one of a ship's company marooned on a little Island in the midst of the sea, what would be your first concern? You would do your utmost to provide food and water and shelter

for all of the company.

Having made sure of these necessities, you would co-operate with your fellows in making the island a better place to live.

You would kill the snakes and dig up the poisonous plants. You would lay out pathways and clear them of stones. To the best of your

ability, you would make the place beautiful and sanitary.

And since all of you were equal in misfortune, you would share equally both the toil and its rewards. There would be no competition or selfish claiming of advantages, for in time of great misfortune these

things are considered poor sportsmanship.

Well, we are all marooned on this earth—brought here without our consent, doomed to remain as fellow unfortunates until death comes to our rescue.

Why are we less noble than we would be on the island? winy are we less noble than we would be on the island?
Simple logic, common sense, selfishness, prudence, justice and common decency urge us to make this world a better place to live.

For thousands of years our race has labored to improve material things for the sake of gain, but never yet has it had the wit to unite in the simple and obviously necessary business of making the world a good place for all of us. There are no more continents to discover; no more worlds to con-

quer; no more great adventures. Yet the ablest and best can find a task suited to their abilities. They can plan a new kind of civilization to make the earth a pleasant place for all.

There is abundance for everybody. In Heaven's name let us untangle this complicated mess and give mankind a chance to enjoy living.

The majority of northern manufacturers have strenuously opposed a diffesential for the south, but the NRA authorities, about 30 days ago, agreed to let a small differential go into the code for a four-month trial. They, however, made the minimum wage for women 27 1-2 cents per hour.

The highly mechanized factories, of which we have about half a dozen in the south, including the Atlanta plants, can fairly well operate on the above minimum, but we have about 150 factories not highly mechanized that are going to suffer immeasurably—and it is generally predicted that many of them will have to close their doors unless the present ruling is modified.

These hand factories are making a strong fight before the NRA, through adstrong fight before the NRA, through has given this subject much attention on behalf of various southern industries.

Baseball at Last NEW YORK, April 19.—The baseball indus-try buys less and receives more advertising than and receives more advertising than any other industry in the country, but this spring, for the first time, it is in a position to repay, in public service, some of the invorse which it has enjoyed. The opening of the business season at the major league baseball plants not only marks the close of the toughest winter of the great American panic, but constitutes a reminder that the country dight get quite mad enough at itself to sting itself to death when things were at their worst. There were prophets who, within the last year, would have laid you no better than even money that the parks would reopen, as usual, for the season of 1984, and the fact than its no-essential industry is reminded by the continued and been unable to come up with their ground rent and the price of new suits and all such equipment, it would have been good political business for the administration to atake them to a subsidy or loan. The spiritual importance of this resumption is best appreciated if you consider how very morose the citizens would have fell if they had been to the things had come to such a terrible pass in the U. S. A. that the major leagues had been compelled to quit operations.

Not So Good

As a career, baseball is much less at tractive nowadays than it was in other years, for wages and allowances have been revised sharply downward and the proprietors of the baseball firms have neither the NRA nor a paleyrs' union to contend with. The individual athlete, as always, found himself obliged to take it or leave it when his boss sent him his contract for 1934, with the difference that this year he was obliged to take much less—or leave it. He is one toiler who positively is not done right by, being denied the right of collective bargaining and even forbidden to shop around for another job with a more liberal employer than the one to whom he finds himself rather agreeably enslaved. But the case of the baseball peon presents theoretical grievances not nearly as urgent as the practical problems of other workmen and it has never yet been advanced to the preferred docket. Even on as little money as \$2,500 for an eight-month year of four-hour days, plus \$2.50 a day for meals when he is on the road, he lacks defenders who would try to shove his his complaint ahead of that man's who is willing to grab a hoe, hod or hammer and hire out to the CWA.

I have sometimes wondered why the proprietors, close and practical as they are in most of their business dealings, have overlooked or deliberately shunned certain great advertising possibilities which are open to them. ADDED FUNDS SOUGHT FORFEDERALHIGHWAYS WASHINGTON, April 19.—A proposed three-year construction program designed "to meet demands for highway and street improvement and to further relieve unemployment" has been developed by road builders who advocate another \$400,000,000 federal highway appropriation.

The major recommendations as set forth by the American Road Builders' Association are as follows:

An appropriation of a 100 per cent grant of at least \$400,000,000 to the states to be made available for the fiscal year beginning July 1, next.

One year from now an appropriation of \$300,000,000 which would be matched with \$100,000,000 by the several states on the basis of 75 per cent federation participation and 25 per One year from now an appropria-tion of \$300,000.000 which would be matched with \$100,000,000 by the ser-eral states on the basis of 75 per cent federation participation and 25 per

### LIGHTNING POWER DECLARED SOURCE OF HUMAN ENERGY

PHILADELPHIA, April 19.—(4)
The driving force of all human life, the energy with which man thinks, loves, works and feels, is born in the lightning of thunderstorms, the American Philosophical Society was told Thursday.

You need not be struck by lightning to get this energy. It is transferred to the human body by nitrogen atoms from the air that have been charged with the terrific electric power of lightning—100,000,000 volts—at a heat of thousands of degrees, Dr. George Crile, of Cleveland, asserted. Taken into the body in food, the nitrogen atoms reradiate this 100,000,000 volt power as short-wave ultraviolet rays, and it becomes the activating force of brain, muscle and nerve cells. Eating food actually is equivalent to eating ultra-violet and infra-red rays, the former in nitrogen. The "lightning force" in nitrogen, the latter in carbon atoms, which absorb radiation from the sun.

The "lightning force" in nitrogen is washed to earth by rain with the latter in carbon atoms, which absorb radiation from the sun.

### Mother of 3 Admits Slaying of Husband

Slaying of Husband

MEMPHIS, Tenn., April 19.—(P)—

A• 2S-year-old mother of three children was held here tonight after District Attorney-General W. Tyler McLain announced she had made a written statement that she fatally shot her husband as he lay asleep.

Arraigned before a justice of the peace, Mrs. Floyd Maxwell pleaded not guilty to the charge of killing Maurice C. Maxwell, 38, an insurance office cashier, in their apartment bedroom last night.

Inspector Will T. Griffin, chief of detectives, said Mrs. Maxwell declared in her purported statement that she shot Maxwell because of concessions she said he demanded of her.

Maxwell was found by police late last night shot through the head. A burglary theory was at first ascribed after Maxwell's pistol and trousers were found in a driveway near the bedroom, where a window screen had been unlatched. Police said they found a bureau drawer, where Maxwell had kept his pistol, had been ransacked.

The Maxwells had been married 11 years. Their children are 10, 8 and 6 years old.

Pattern 1828.

A cape frock is not only young looking, but surprisingly slenderizing. This one particularly so, since it has been designed to cover a full bust and stout arms. The silhouette is further slimmed by an absence of belt and by those delightful and carefully planned skirt panels. A charming frock for a sheer fabric in silk or cotton, in print or monotone. ### 'White Collar' Workers Are Called ATLANTA PENSION LAW To Organize To Protect Interests

PITTSBURGH, April 19.—(P)—A call to arms for the long-suffering white collar" workers, the millions of middle classmen who are flanked on one side by capital and the other by labor, was sounded today by Eugene A. Holland, Pittsburgh insurance man.

Announcing the formation of the White Collar League of America, a non-profit, in corporated organization designed "to work in the interests and for the welfare of that great group of United States citizens commonly known as the 'white collar' class," Holland said the idea was born from watching a "two-year parade of hopelessness."

### SINCLAIR CAMPAIGN

The tremendous power of gasoline is dramatized in a radically different new advertising campaign announced Thursday by Sinclair Refining Company to appear simultaneously in 340 cities throughout the Sinclair marketng area. Gasoline power has been translated

Gasoline power has been translated by Sinclair engineers into terms of "lifting power" of a gallon of gasoline as rated in foot-pounds. The potential energy in a gallon of the new H-C. Sinclair gasoline, it is explained, is 99,000,000 foot-pounds per gallon. It is enough to lift the Empire State building 1 3-4 inches. The height to which it would lift Washington's monument, The Egyptian Sphynx and Pyramids, the Eiffel tower, Statue of Liberty and other colossal structures will be illustrated in succeeding ads of the series.

Supplementing the newspaper advertising, the company has prepared a folder giving more detailed description of the potential energy in gasoline and the way in which automobile engines develop power from gasoline. This folder will reproduce the entire series of "power" illustrations with interesting information about the structures used in illustration.

### Miss Newby Weds Jack Butterworth At Vienna Ceremony

Characterized by beauty and dignity, the marriage of Miss Gertrude Newby, of Vienna, and Jack E. Butterworth, of Winnsboro, S. C., was solemnized Saturday afternoon at the Methodist church in Vienna. Rev. E. L. Barlow, of Atlanta, performed the ceremony in the presence of a large gathering of friends and relatives from Georgia and South Carolina.

The bridesmaids, Misses Aurelia Newby, sister of the bride; Roselyn Braselton, of Braselton, and Sue Butterworth, of Winnshoro, were gowned alike in French cord lace with shades of azure blue and rose petal pink being worm by alternate bridesmaids. The dresses were made along princess lines, floor length, the bateau necklines being finished off in wide tucks which formed the shoulder puffs of the long sleeves. Their hats were small brim models of Neapolitan braid, trimmed with a bandeau of forget-me-nots. Gloves with flaring ruffs of organdie and kid sandals completed their costumes, matching their gowns. They carried bouquets of pink sweet peas. The junior bridesmaid, Miss Mary Kelt, of Atlanta, niece of the bride, wore a dress of blue French cord lace, fashioned like that of the bridesmaids, with gloves, hat and sandals of the same shade and pattern. Her bouquet was of pink sweet peas. Robert Newby Jr., nephew of the bride, was junior groomsman. iresses were made along princess lines.

### Mrs. Evans Honors Alabama Visitors

Assembling a group of the social contingent was the informal tea given on Thursday by Mrs. William D. Evans at her Morningside drive residence in compliment to Mrs. Mayer Aldridge, of Montgomery, Ala., and Mrs. Harwell G. Davis, of Birmingham, Ala., who are visiting Mrs. Robert T. Taylor Jr. at her home on Ponce de Leon avenue.

Spring blossoms were employed in the effective decorations, and quanthe effective decorations, and quantities of pansies and gay colored tailps adorned the living room, while dogwood was arranged in the spacious hall. The tea table was centered with a silver bowl holding an effective arrangement of snapdragous and tulips in pastel shades encircled by silver candelabra holding yellow tapers. Miss Frances Longino presided at the tea table and Miss Mary Tripp assisted in serving.

### Fathers' Dnner Given By Seminary Students.

A unique and enjoyable affair was the dinner given on Thursday evening by members of the domestic science class of the Washington Seminary in honor of their fathers. Hostesses met the guests in the handsome parlors, and led the way to the dining room, where the perfectly appointed table with its lovely center piece of spring flowers was arranged. The five courses had been selected especially to appeal to the masculine taste and were well cooked and appetizing. Six members of the class served. After dinner the Home Beautiful books were displayed.

There is an opaque nail polish if you like the ground glass window effect. You can have raspberry nails or flame color or you can have hands with silver tips. These take very white hands or they bring out all the unpleasant lines in hands that have passed 30. It's the hands that have passed 30. It's the hands that have passed 30. It's the hands that first show age, and if you haven't very young hands, you should let flamboyant nail polishes alone. Liquid polishes come, you know, in the natural color.

There are various grades of polish and some of them are easy to apply and keep smooth while others have a tendency to thicken after you cork and uncork the bottle a few times.

If you mails have a habit of shedding polish, if it hardens and then cracks, what you need is to treat the nails to some cream that will keep; them in the proper condition for trimming. It is the brittle nails that break at the slightest provocation, and

be heated and applied much more quitely.

As pictures they, of course, are excellent but they are equally attractive decorating cushions, the ends of a scart or the opposite corners of a teacloth. Either size motif would lend itself to these uses. And then lamp shades—they're particularly pretty with silhouettes like these embroidered on them.

As declarer, I was not even greatly alarmed when the aforementioned lady tvery promptly led a heart through my partner's original bid; but when the ace won and a heart came back, again with disconcerting speed, I went into quite a huddle. After an appreciable time, during which the lady squirmed and seemed unusually impatient, I decided the original lead was really a singleton and therefore trumped with the king, intending to finesse the knave. Greatly to my astonishment, no sooner had my card touched the table than the deuce of trumps was banged down by the lady, who at the same time made a gesture toward scooping up the trick. Of course, I broke her wrist and took the cards away from her, but I was very, very dubious when, having led the knave of trumps from my hand, she followed with the six-spot. In my own defense, I must say that I searched her guileless blue eyes very carefully. Could there be, I pondered, diabolical deceit behind such lovely orbs? No—a thousand times no! She had merely, in her girtish enthusiasm and joid de vivre, been unable to restrain her-self in her eagerness to ruff the second heart, and now the queen of trumps must be blank in the East hand. I went up!—and made her a famous woman (and myself a misogynist)."

Friendly Counsel By CAROLINE CHATFIELD. Problems of general interest submit-ted by readers will be discussed in this column. Correspondence invited. Four name held in confidence. Write Miss Chaffield, care The Atlanta Constitation.

Dear Miss Chatfield—The young man who wrote to your column that he was looking for an old-fashioned girl isn't fair. He is like all the rest; crying that he prefers them old-fashioned when in reality he wants them modern. Let a girl refuse to pet, to smoke and drink a little and she will sit at home by herself every evening, either crocheting or twiddling her thumbs. "Be good and you will be lonesome" is not mere hearsay. Plenty of girls have a horror of being petted, are nauseated by the smell of liquor, set to coughing by amoke from a cigaret, but they constitute a group who never have beaux to bless themselves with. On the other hand, the jazzy, brazen, sunflower has beaux by the score. They say men don't marry these girls but they do marry them every day. We' old-fashioned ones can't do anything but live by the faith of our mothers. We can't call up the men and ask them to come to see us. We can't hang around their places of business, waiting for them to appear. We would die first. But of course the price of this is a lonely heart. Why is it? HELEN. Dear Miss Chatfield-The young

Answer:

As brutal as it sounds, it is NOT clinging to the old-fashioned ideals as regards petting, drinking and smoking that keeps a girl from having beaux. The proof is that in every community there are shining lights of popularity among the girls who do not indulge in these pastimes. Now it is true that the excess of high animal spirits (always attractive in youth) is the thing that leads these jazzy girls to a spirit of this spirits (always attractive in youth) is the thing that leads these jazzy girls to a spirit of this reges and interest. She should keep herself dainty and after the mother arrived.

Indulge in petting, smoking and drinking. They are bent on a good time and will have it at any cost, but if they didn't do the compromising things they would still have the beaux. And if the old-fashioned ones who refuse to make the compromises were to reverse themselves they would not meet with the success that their jazzy sisters have had.

The ability to attract the opposite sex is a gift and nobody has quite analyzed it. But this much everyody knows: that a girl born without it frequently gets mærried but she never has the bevy of beaux that the talented sister annexes without effort. It may be true that a girl can make better time with the men temporarily if she is known as a good sport who will go the second mile. It may be true that some man will marry her in spite of the fact that she has gone the second mile with others than himself, However, the standards of decency may tilt a little as time goes on but they never overturn completely. And so long as there are women holding up the standards of feminine reserve and purity so long will the men prefer o marry these virtuous ones.

It is humiliating to a girl to find herself out of the swim. Naturally enough she tries to account for her failure in some manner that will salve her pride. But she shouldn't make the mistake of sulking in her tent and snarling at her more fortunaate sisters. Better for her to cultivate the qualities that men admire and to try in a decent way to compel their admiration and interest.

She should keep herself dainty and physically attractive. She should

No name was given to the prospective publication, the name to be decided by a contest in which all members of the state organization may participate. Mrs. Willingham offered a prize to the club sending in the name which shall be adopted.

Now Clubs Announced.

Miss Irene Davis, of Thomasville, chairman of admissions, reported 17 new clubs admitted to the state organization during the past year, the list including the Mignon Garden Club, of Sale City; Cherokee Heights Club, of Macon: Abbeville Garden Club, of Abbeville; Rosemary Club, of Atlanta; Gainesville; Cherokee Club, of Gainesville; Cherokee Heights of High school and junior high girls, divided according to height; will participate in the following events: diply and the lower school boys and girls, divided according to height; will participate in the following events: diply and the lower school boys and girls, divided according to height; will participate in the following events: diply and the lower school boys and girls, divided according to height; will participate in the following events: diply and the lower school boys and girls, divided according to height; will participate in the following events: diply and the lower school boys and girls, divided according to height; will participate in the following events: diply and the

the first meeting in Atlanta six years ago.

Mrs. Berry, in greeting the convention in her presidential message, urged the members to pull together as a power for beauty, pointing out that power lies in the unification of individual strength. Announcing with pride Georgia's standing as third in the National Council of Garden Clubs, she outlined the splendid purpose of the state organization as embracing the promotion of the love of gardening, public service, and civic planting for the sake of beauty.

day's audience can testify.

Declaring that gardening is inseparably alligned with happiness, Mr.
Hottes raised the question, "Do we have to search for happiness?" The answer is found, in his belief, that the simple happenings in a garden—the sprouting of a seed or the opening of a rose—transcend the joys of the business mart and the eternal search for

ness mart and the eternal search for adventure.

He described gardening as a wonderful adventure for all ages, in that it satisfies the natural longing of human beings to be a part of this earth. Fervently advocating the beautifying of American landscape, he pointed this as where the organized garden club can justify its being.

Quoting from Ella L. Cabot that "the gropings of one generation bring the next into the sunlight." Mr. Hottes made a strong plea to his audience to interest the youth of the land in the appreciation of the great outdoors and in the beautification of America. He urged the study of nature as a part of the educational system of the child. "Every garden club member is an apostle of beauty." he said, "and in a way you are crusaders. Make the

A marriage of interest was that of Miss Louise Brody to Edward Benson, of New York city, which was solemnized recently at a lovely home wedding at 625 Boulevard. Rev. Harry Epstein performed the ceremony.

The bride entered with her father, Ben Brody, by whom she was given in marriage. She was a charming figure in her becoming gown of black lace with royal blue accessories. Her shoulder bouquet was of Sweetheart roses.

Mr. and Mrs. Benson left for a wedding trip to Youungstown, Ohio, and upon their return they will make their home in Atlanta.

Another Australian animal is known as the "echidna." This little beast, smaller than a woodchuck, has sharp quills which make it look like a porcupine. It has a long, sticky tongue and uses it to gobble up ants, like the ant-eater of South America. Thus we might call it a "porcupine anteater."

Australia is the home of animals which seem "queer" to us, though to a native of the island contingent they seem natural enough.

They are quick at digging, and at sign of danger they often try to dig a hole in which to hide themselves. They also roll in a ball when in fear. Just as strange as the echidna is tound in an around rivers of southeastern Australia. It measures about 20 inches in length, and has a coat of brown fur. It lays eggs and has webbed feet. Instead of a mouth with teeth, it has a bill like that of a duck. Its home is a hole dug in a river bank.

The duckbill swims freely, and makes its living by capturing water insects. It is classed as a mammal, but seems almost like a bird.

Wild dogs exist in Australia. They are known as "dingoes," and are a terror to farmers who raise sheep. Often they hunt in pairs, or in packs of five or six. They look something like wolves, but are not so large. They have been tamed.

### 'Hollywood Party' World Debut Features New Film Bills Today

Four downtown theaters present new programs today. One carries added importance in that it is a world premiere showing. This is at Loew's Grand where "Hollywood Party," a musical with an impressive list of star names, including Mickey Mouse, is shown before a regulation audience for the first time anywhere in the world. The Fox theater opens a week's run today of "Melody in Spring," a musical of different type which marks the screen debut of Lonny Ross, a popular tenor hailed as a second Bing Crosby.

The Rialto theater today opens a return showing of "Roman Scandals," the elaborate musical spectacle starring Eddie Cantor. Ruth Etting in this picture not only reveals herself as the great singer, but also as a beauty rarely surpassed by women on the screen.

Manager W. T. Murray has booked "Roman Scandals" for five days, including Sunday and continuing through Tuesday. On Wednesday next he offers, for three days, a new mystery thriller by Columbia, entitled "The Ninth Guest," with Donald Cook and Genevieve Tobin in the principal roles.

In addition to Cantor, "Roman Scandals" is notable for two of the most elaborate spectacles ever seen on the screen. The Goldwyn beauties, the finest blondes in the world, appear in one as chained slaves in the market and in the other as Roman ladies at the baths. These two scenes are still the marvel of all who have seen them.

In "Hollywood Party"
Remember "Hollywood Revue?" Remember "Broadway Melody?" Metro-Goldwyn-Mayer, who made these productions, have been at work for the past 10 months on their successor, "Hollywood Party," which will have its world premiere at Loew's Grand theater today, bringing an assortment of M-G-M stars in one of the funniest, gayest, most tuneful entertainments of the season.

There is a fraction of a plot to "Hollywood Party" but it is incidental to the spectacular musical numbers, the breezy comedy, the pretty girls and the informal antics of a cagt including Lupe Velez, Jimmy Durante, Polly Moran, Jack Pearl (the Baron Munchausen), Laurel and Hardy, Charles Butterworth and various others.

cluding Lupe Velez, Jimmy Durante, Polly Moran, Jack Pearl (the Baron Munchausen), Laurel and Hardy, Charles Butterworth and various others.

The entertainment centers around one of those lavish Hollywood social affairs, which have a strictly business aspect. Jimmy Durante is the host. He is supposed to be a famous movie actor known as Schnarzan, the Lion Man. He appears in a series of highly popular jungle films, and Lupe Velez is the pretty jungle beauty Schnarzan woos. The party is given in honor of the Baron Munchausen, a lion tamer, and Laurel and Hardy, who own a couple of lions, come uninvited. Polly Moran is much, in evidence, and so is Charles Butterworth. ### Fox Has Lanny Ross In "Melody in Spring'

Comedy, melody and beauty, expertly woven together in Paramount's "Melody in Spring," give local picture goers their first look at Lanny Ross today at the Fox theater.

Ross, hailed as a second Bing Crosby, is given his screen debut by the same studio that presented Crosby to the film fans a year ago. Ross has a marvelous tenor voice that records as well on the screen as it does on the radio. He is young and handsome. And he turns in a neat job as an actor in his first screen appearance.

Charlie Ruggles and Mary Boland, that grand comedy team, are on hand to assist Ross in his initial film ap-pearance, and, as usual, are immensely funny. Ann Sothern, Ross's "love in-terest," is decorative, and sings well in the dust. terest," is din the duet.

of dog biscuits, who has the nation's most popular radio program. As a hobby, he collects various objects once owned, associated with, or touched by prominent personages and it gets him into frequent difficulties. Miss Boland, as usual, is his wife, and Miss Sothern his daughter.

"Krakatos," the short feature that won the award for being the best produced in 1933, is on the same program. This 30-minute short presents scenes of the great under-sea volcano, erupting more than a thousand times a day and shooting water into the air more than a thousand feet. of her latest comedy-drama, "This Man Is Mine." which starts today at the Paramount.

Miss Dunne, who frequently has been referred to as Cinemaland's "first lady," because of gentility and patrician beauty, becomes elemental in "This Man Is Mine," even going so far as to portray a modern fighting Amazon who smacks her husband over the head with a \$500 oil painting.

The story, an adaption of the stage play, "Love Flies in the Window," discloses Miss Dunne and her screen husband, played by Ralph Bellamy, as a serenely happy couple until a former love of the husband's returns from Reno and practices her wiles upon him. When her husband asks for a divorce, Miss Dunne refuses, telling him, however, that if he still wants a separation at the end of six months she will consent. However, when she sees her husband is content to remain in the arms into which she has tossed him, Miss Dunne proceeds to give both of the offending parties a taste of the mailed fist.

### State Tax on National Banks **Favored by House Committee**

WASHINGTON, April 19.—A bill to permit states to tax national banks was a "roved today by the house banking committee.

Meanwhile, Speaker Rainey told reporters that he personally favored the bill by Representative McLeed, republican, Michigan, to pay off depositors in closel banks but he doubted it would be passed this session.

President Roosevelt is opposed to the legislation.

The national bank taxing bill stipulates that the state levy must not be higher than that placed on the in come or profits of a business institution in the state.

Chairman Steagall, of Alabama author of the measure, said passage would be sought this session.

Saying the Reconstruction Corporation and loaned \$750,000,000 on frozen assets of banks, Rainey said "nobody knows how much frozen assets are in the state banks" and added the government could not pay off one class of depositors and not the others.

"There is no telling how much is natually lost and the question is how much the government would lose in paying off the depositors," he concluded the province of the losses of individuals.

"It would be delightful if we could pay all losses resulting from the depositors and not the others.

Boston Enjoys Patriots' Day With Double Victory, 5-4, 7-3.

BOSTON, April 19.—(49)—The Red Sox celebrated Patriot's Day in the approved Boston fashion today by taking both of the holiday games with the Washington Senators.

In the morning contest Julius "Mosse" Solters' homer in the ninth settled a see-saw game, played before 6,000, and gave the Red Sox their first victory by a 5-4 margin.

The afternoon contest, played before 34,000, the largest crowd Fenway park has housed since Tom Yawkey bought the club more than a year ago, resulted in a 7-3 victory for the Sox, a success that enabled them to square their initial four-game series with the American league champions.

Terrific hitting by Carl Reynolds, Bill Werber and Bill Cissell kept three of Joe Cronin's hurlers in the hole during the entire game. Reynolds had a perfect afternoon at the plate, getting two triples and a pair of singles out of four tries. Werber, who made two doubles during the morning play, continued his slugging, getting a triple, double and single before the large crowd. Cissell obliged with a home run and a single.

### "Old Man" Stamina Is Track Athletes' Best Friend

When the brilliant Perrin Walker buzzed through two running races, sprinted as anchor man in the mile relay and participated in three field events for the Georgia Tech track team last week, he established himself as the first present-day athlete to approach the records of stamina left by those who made track history in Dixie.

Walker will hardly be permitted to go in for endurance competition as Tech officials sensibly wish to develop him in the running races and will have him specializing in the sprints. Otherwise he no doubt would develop into an athlete who could match the old marvels whose records date back to the days when one good performer was about all one school pos-

It was D. Jenkins, of L. S. U., who left a record for stamina which is positively amazing in its aspects. Jenkins was one of the first of the nationally known southern sprinters.

The records show that on May 13, in the S. I. A. A. meet of that spring, Jenkins won heats in the 100 and 220 dashes. That's two tough ones.

He then won the finals of the 100-yard dash in 10 seconds flat; the 220 in 21.8 and the 440 in 49.2. He also took second place in the broad jump.

All of which means he ran and won FIVE sprint events and placed second in the jump.

Perhaps greater even than Jenkins' achievement was that I 31 10 27 10 of Don Scott. He was at Mississippi A. & M. in 1918, during

the mile, especially when run in record time, and when a fellow wins them he has done himself a nice afternoon's job of foot

### IT IS HUMAN NATURE.

It is perhaps true that the statistics are not interesting, but they are to me. I think it is human nature. Fellows often drink until the doctors inform them they will become permanently dead if they do not stop, whereupon they become very strict prohibitionists. People often eat until their stomachs will accept nothing but milk and crackers, and that rather unwillingly. And they then become bores who talk about diets and who look with extreme abhorrence upon a fellow who eats steaks and pork chops and pie with cheese, viewing him as a

steaks and pork chops and pie with cheese, viewing him as a disgusting glutton.

And I cannot take a quick gallop after a street car without all but puffing the conductor right off his platform. And so these records of fellows like Perrin Walker and Scott and Jenkins intrigue me no little.

And so we will continue for a while.

Cochran, another of Mississippi A. & M.'s runners, all but duplicated Scott's work, except for the new records, when hwon the 220; the 440, the 880 and ran on the relay team in a dual meet with Georgia Tech in 1922.

When Bob Young was coming along at Georgia as one of the south's best distance men, he won the mile and two-mile runs and then, when his team needed the half-mile to win the dual meet, entered it and won it.

And that is a man's job for one afternoon.

The next year, as a sophomore runner, Young won the two-mile and the mile an

The next year, as a sophomore runner, Young won the twomile, the mile and then entered the half-mile and won it to give Georgia a 63-63 tie with Auburn. Weems Baskin, who now coaches track at Georgia,

scored 26 points against Georgia in 1926 and the same year scored 21 against Tech in a dual meet. Weemie Baskin could step in those days. And can yet.

### STEPPING OUT OF DIXIE.

It was while browsing around in the record books that found the best one of all.

Bob Simpson, a great hurdler at Missouri, once won the 100 in 10 flat; the 220 in 22 flat; the high hurdles in 15 flat; the low hurdles in 24 seconds; won the broad jump at 23 feet, and ended up running on a winning relay team. And that is an afternoon's performance which will stand

for some time and provide argument as to whether Simpson's

## HITS HOME RUN

Parmelee Blows 'Em Down With Speedball Until Eighth Round.

NEW YORK, April 19.—(P)—The world champion Giants scored a typical Giant victory today as they downed the Phillies, 2 to 0, for their third straight victory of the new season.

The Giants collected only four hits from the offerings of Fidgety Phil Collins, but they were enough to back up the hurling of Roy Parmelee and Adolf Luque. A dark day proved just suited to Parmelee's speedball and he gave the Phils only three hits in the 7 1-3 innings he worked. Luque granted two more. granted two more.

granted two more.

Wildness caused the Giant flinger's removal in the eighth after he had walked five men and hit one batsman. The Phils had two men on the sacks, through their third hit and a pass, when Luque came in to quell the incipient uprising. Parmelee was the first of three Giant starting pitchers who failed to go the route.

Manager Bill Terry did enough to win the game in the first inning when he clouted one of Collins' pitches into the upper tier of the right-field stands for a home run. It was his first hit of the season. The other Giant run was unearned. It came in the fifth after a two-base error by Lou Chiozza, rookie infielder. Chiozza heaved the ball over first after taking Johnny Vergez's grounder and the runner reached second. After Paul Richards

### **GOLF FACTS**

If I had only one small part of a player's swing to watch I would give all my attention to the positions and movements of his left foot.

Of all the positions and movements of both feet the way the left foot drops to the ground in the downswing is the most important.

This foot should return to the very imprint it made while the player was addressing the ball.

Most players start the backswing by raising the left heel. This puts the weight on the toes and encourages turning around on the toes during the backswing.

Hoving done this it is almost impossible to bring the foot down to its proper position. And the while swing is altered likewise.

Roll the foot over toward the inside to begin with and it will generally drop into the proper position in the downswing.

### ABBOTT PLANS TO USE CASEY AGAINST VOLS

Atlanta Seeks Even Break; Lookouts Here on Monday.

By Jimmy Jones.

The best laid plans of mice and men oft go astray, as Bobby Burns, the winsome Scottish bard, summed it up long ago. And the line seems to apply perfectly to the plans of our baseball men.

baseball men.

For instance, here Spencer Abbott, the old police chief, has had a punitive campaign mapped out against the Nashville Vols for two days hand running, only to have the weather prevent anything of the kind, as well as spoiling the good humor of your Uncle Wilbert Robinson, who has been lying awake at night, anticipating what the Crackers were going to do in the way of obtaining retribution on that bail club.

"ROBBY" GOES, TOO.

Mr. Robinson, being a great base-ball fan, naturally resents any inter-ference by the weather, so last night he accompanied the Crackers to Nashville, where they will appear against the Vols at Sulphur Dell today in the latter's own season opening.

There was nothing else to do, since the Crackers had to follow schedule, and those fans with an eye for bargaining may save their nickels for a couple of double-headers—one of them with the Vols on Sunday—that will be played here later.

be played here later.

The Crackers, thwarted for the second day in a row, moved to Nashville in a somewhat vengeful mood last night, determined to do a bit of spoiling of their own. Manager Abbott grimly stuck to Hugh Casey, the Buckhead boy, as his starting pitcher against the Vols in their own bailiwick Casey has been ready for two days, but the weather has been unusually orners, so Abbott decided to be equally stubborn about it and pitch Hugh Casey, regardless of whether they play Nashville today, tomorrow or in July.

A VENGEANCE.

### A VENGEANCE.

A VENGEANCE.

Mr. Abbott is an ex-police chief and Hugh Casey is a policeman's son, so there ought to be vengeance working for the Crackers at Nashville today. Abbott had planned to open the series at Nashville with Howard Parker, another of his juveniles, but switchback to Casey when yesterday's game was rained out.

Charley Dresson the viscaine little.

Charley Dressen, the vivacious little skipper of the Vols, decided he would be stubborn, also, and reiterated that Big Jim Chaplin would be his pitching choice today, although Jackie (Screwball) Reid was the original choice.

Although yesterday was no day for baseball, Abbott had the Crackers out in uniform and had all the pitchers throwing the ball to get their shoulder muscles loosened up again.

### URBAN ACADEMY GRID CONTRACT

Smithies Will Invade West for First Time and Meet Cadets Sept. 22.

By Roy White.

By Roy White.

Tech High's city and state prep championship football team will play the Urban Military Academy eleven at Los Angeles, Cal. December 22, 1934, it was learned Thursday. A home-and-home game arrangement, with Urban playing an October night game at Ponce de Leon park in 1935, has been scheduled

It is the longest intersectional trip to be arranged by a southern prep school, and one of the few cross-country james to be attempted by a high

school, and one of the few cross-country jaunts to be attempted by a high school eleven.

A contract for the games has been tentatively made and will be completed within the next few days, it was announced Thursday by W. O. Cheney, principal of Tech High school.

ACCEPTANCE. A letter accepting the tentative proposition submitted by Cheney to Urban Military Academy was received several days ago from Captain John W. McDonnell, director of athletics

for Urban. In his letter to Cheney, Captain McDonnell stated that Hech High was the best drawing card for prep teams east of the Missispip river. Records bear out that statement, and the Cal-

ifornia school was particularly anxious to have the Smithies as their guests this year.

Negotiations for the games were started last fall, but the Los Angeles school wanted to come here this year and Tech High go there in 1935. But since Tech High brings both Charlotte and Miami High here this fall, Cheney had about abandoned the idea until the return letter accepting the until the return letter accepting the Tech High terms came this week.

In making the trip, the players will not lose any time away from school, as it will come during the annual Christmas holidays.

Tech High is anxious to arrange a game for December 29 or January 1, on the way back home from California. Letters have been written to El Paso, Dallas and Houston, seeking a post-season game for the late December or New Year's date.

ATLANTA SPOT COTTON. Atlanta spot cotton closed steady, 5 points down at 11.75. Receipts, 814; shipments, 1,-274; stocks, 204,096.

NEW YORK, April 19.—(P)—A decline of approximately \$1.25 a bale in cotton under further liquidation and scattered selling promoted by the weakness of wheat, was followed by rapid rallies during the late trading today. July contracts, after selling off to 11.50 during the early afternoon or 23 points net lower, closed at 11.70, with the general market closing steady at net declines of 5 to 8 points.

The opening was 6 to 8 points.

The opening was 6 to 8 points lower in response to relatively easy Liverpool cables. Initial offerings were taken by trade buying in the near months, and there was a scattered demand for later deliveries.

This was supplied on bulges of a point or two, however, and the market soon showed renewed easiness unred a continuance of liquidation and scattered selling. This became more active as the extreme weakness developed in the wheat market, and some stoponders were uncovered on the afternoon decline which extended to 11.41 for May and 11.60 for October, making net losses of about 24 to 27 points and new low ground for the movement.

Offerings then tapered off and the

points and new low ground for the movement.

Offerings then tapered off and the market rallied rapidly later in the afternoon on covering or rebuying attributed partly to the improved technical position and bullish view of some reports reaching here with reference to the possibilities of silver legislation in Washington.

Prices recovered some 18 to 20 points of their early losses and closed within a point or two of the best for the day.

COTTON IN NEW ORLEANS DECLINES 5 TO 8 POINTS

DECLINES 5 TO 8 POINTS

NEW ORLEANS, April 19.—(P)
Cotton was very active today as the
market declined sharply on a break
in wheat and then made a strong recovery. The close was steady, showing net declines for the day of 5 to
8 points.

The opening was easier owing to
lower Liverpool cables than due and
some overnight selling orders.

Liverpool is due on New Orleans
tomorrow 2 to 3 penny points up.

NEW YORK, April 19,—(P)—
Bonds edged forward again today, many issues marking up the familiar "new highs" despite the appearance of considerable profit taking.

The trading volume expanded moderately, transfers totaling \$15,936,000, par value. The average for 60 domestic corporate issues advanced two-tenths of a point to \$7.7, another post-1931 top.

Traders were a little more cautious, due probably to unsettlement in the commodities markets, but most offerings were absorbed without difficulty. Secondary issues continued to attract the more speculative buying.

The rails, for a change, were a little behind the utilities and industrials.

Among the more active gainers were

trials.

Among the more active gainers were some loans of American Sugar Refining, American Water Works, Bethlehem Steel, Consolidated Gas, Laclede Gas, New Orleans Public Service. Skelly Oil and Western Union.

The majority of United States government securities were somewhat lower and foreign obligations were mixed.

United Purchasing Company vs. Souther;

By CLAUDE A. JAGGER.

NEW YORK, April 19.—On this first birthday of the new dollar, the world of finance is chiefly interested in what this dollar is going to look like on its second birthday.

The monetary doctors widely agree that the dollar will not buy as much a year from now, as it will today. Whether it will contain less gold, or even some silver, remain moot questions.

The dollar informally left the gold standard March 4, 1933, when the federal reserve banks ceased redeeming paper currency with gold. But it was April 19, a year ago, that former Treasury Secretary Woodin formally announced the dollar was no longer a gold dollar, but a managed dollar.

Our monetary unit now finds itself on a modified gold bullion standard—"1934 model," according to Secretary Morgenthau—and stripped from 25.8 grains of gold, nine-tenths fine, to 15.5-21 grains.

Under legislation enacted last May, and last January, the president may increase the amount of gold in the dollar a trifle, that is, to 15.48 grains, and may decrease it substantially, in fact to as little as 12.9 grains.

President Roosevelt and Secretary Morgenthau have made it clear that they wish to continue with the present dollar of 155-21 grains for the time being.

In the meantime, the silver bloc in

are furnished company.

In the meantime, the silver bloc in congress is agitating for greater monetary use of silver. The administration has been cool to most of the silver proposals, and usually well-informed quarters assert that any mandatory silver legislation of extended to the cool of the silver proposals, and usually well-informed quarters assert that any mandatory silver legislation of extended to the cool of the co

RICHMOND, Va., April 19.—(A)
Stewart-Warner stockholders at an adjourned meeting here today voted to reduce the par value of common stock from \$10 to \$5 a share.

The corporation's capital was authorized reduced accordingly.

Action on this proposed amendment to the charter was the only business before the meeting.

Directors were elected at an earlier meeting here.

### COLLINS AND RILEY

SUGAR.

NEW YORK, Aprill 19.—Raw sugar declined 3 points early fer spots, then ralled 2 points to 2.72, while later shipments held at or alightly above the last paid prices. A slightly better inquiry was reported.

The sales included 9,000 bags of Philippines in port at 2.70, 15,000 bags of Philippines in port at 2.70, 15,000 bags of Puerto Bican, due early next month, at 2.72, and 130,500 bags of Philippines for May and June arrivals at 2.75 to 2.80.

After an irregular opening futures easied off under increased May liquidation and scattered selling prompted by the continued liberal offerings of duty frees in the spot market and uncertainty over the sugar bill in the sants. Final prices were 1 to 3 points net lower. Sales 30,000 tons, in-

spear, bow, quiver of arrows, the grass rope and the knife. The officers examined them one by one, carefully. "What do you suppose this thing is for, Gemnon?" the cruel-faced officer asked

After examining Tarzan's bow with much curiosity, Gemnon, the junior Cathnean officer, remarked:
"Probably 'this a snare for small animals, for
'twould be useless against anything large." "Let
me take it," suggested Tarzan. "I will show you
how it is used."

By Edgar Rice Burroughs

As the younger officer handed Tarzan the bow, Tomos warned, "Be careful, Gemnon, this may be a trick to get possession of a weapon with which to kill us." Tarzan glanced about the room as he took an arrow from the quiver.

Georgia's Outdoors

Before many days the quail will be breeding. What does that mean to you? It should mean that production will be under way for the biggest sporting crop in the eastern United States. It should mean that you have a chance of collecting interest on an investment by putting out food and plenty of it. It should mean above all things that you should keep your dog penned up for a good long time, or at least see that he is not free to roam the fields. In the state of Pennsylvania the owner of a dog found ranging in game-bird cover is subject to a stiff fine. This is a wise law in that it affords game protection from a serious menace. If you protect your game, you will protection from a serious menace. If you protect your game, you will realize big returns.

The stray cat menace is one that must not be forgotten. Every night that a stray cat roams your lands, it is costing you actual money. Quail alive, states one paper, have a value of \$5 a pair. This is high. Actually they are worth what you can get, and the more you have on your lands, the more you can get. Did you know that some men charge as high as \$10 a day to hunt on their lands? It is true. They get it because they have the game. The cats are costing you the game that might abound on your farm with a bit of protection and care. Kill the cats and save the quail.

### VICTOR H. MARECHAL

Infection resulting from a ruptured appendix Thursday night brought death to Victor Hugo Marechal, 43, of 617 Parkway drive, proprietor of a drugstore at Broad and Marietta streets, who was operated on last Fri-day night in a private hospital.

Dr. Marechal, a graduate of the Atlanta College of Pharmacy, had delayed going to the hospital for an operation until the appendix burst. He was a native of Troy, Ala., and came to Atlanta in 1908, when he became connected with the drugstore business.

business.

In addition to his mother, Mrs. Irene Marechal, he is survived by a sister, Mrs. A. B. Gardner, of Americus; a nephew, Owen Gardner, of Atlanta, and a niece, Miss Elizabett Gardner, of Americus. He was a member of Yaarab temple of the Shrine and Couer de Leon command-ery, and a charter member of Jos-eph Greenfield lodge, F. & A. M. He was a member of the First Baptist church. Funeral arrangements will be announced by Awtry & Lowndes.

### Bankers Talk Code With Johnson Aid

HOT SPRINGS, Ark., April 19.—
(P)—The code committee of the American Bankers' Association met behind closed doors here today with a representative of General Hugh Johnson, NRA administrator, in an effort to iron out differences over the schedule of banking service charges, a subject of controversy since the bank code was approved last October.

The committee remained over after the annual spring meeting of the executive council of the association which concluded its session yesterday. Plans for the conference did not become known publicly until the arrival today of Donald F. Ratcliffe, assistant deputy NRA administrator.

Neither Ratcliffe nor Donald Ransom, of Atlanta, chairman of the code committee, would discuss detail of the conference, they said subcommittees which had considered various phases of the service charge schedule would report at a night session, but that there would be no developments to be made public.
